### BSc in Software Engineering

Iranian University  
2015 - 2017

## LANGUAGES

Persian (Native)

English (Professional)

Arabic (Basic)

## INTERESTS

Climbing

## ABOUT THEME

How to use?

## CAREER PROFILE

I'm so creative and motivated to invent new things. I hope touch a lot of technologies. Recently I have learned a lot of best practices in developing clean code according to SOLID principle. I'm working on a lot of Design Patterns in PHP. Also I didn't forget to improve my soft skills and every day read some books and articles.

## EXPERIENCES

### Developer

2022 - Present

Startup Drdr.ir, Tehran, Iran

As a developer I had to deliver some tasks in both the backend and frontend at first. After a while when the new version deployed on production, I started my work as a backend developer specifically on the Laravel framework. Some of my specific points during this job are:

- working with Asterisk
- working with Design Patterns
- complete unit/feature test
- try to develop based on TDD

### Co-Founder - Developer

2020 - 2022

Startup Adilar.com, Tehran, Iran

As a co-founder I managed the development of a large part in adilar.com. Adilar is an ATS for HR which enables recruiters to control workflows easily. Some of the best works that I have experienced in Adilar are:

- learn Laravel for the first time
- running CI/CD with gitlab
- Docker and docker-compose on production
- learn to code with Vue.js/Nuxt.js

### Developer

2016 - 2020

IPM.ir, Tehran, Iran

During 4 years experienced a lot of technologies with test and fail. Based platform which we have worked on it is ProcessMaker.com. An open-source BPMN2 platform in PHP Language. I have experienced in features below:

- ProcessMaker
- Ext.js
- Linux
- Git
- gitlab

### Supporter

2015 - 2016

TBCom.ir, Tehran, Iran

I started as an intern. After a while my duty was supporting client with phone and manage update patches. Fix some problems I have experienced in features below:

- MS SQL Server
- Soft Skills

### IT Manager

2014 - 2014

Dinawin, Tehran, Iran

As an IT Manager I was responsible to all of issues about Network, Cameras, PCs and Servers I have experienced in features below:

- ICDL
- Network+
- Server (Linux, Windows)

## CERTIFICATIONS

### Network+

2014 - 2014

Noora

### LPIC1 & 2

2014

Anisa

## SKILLS & PROFICIENCY

Linux
