

Who we are

We are an award-winning social enterprise. We've worked with hundreds of organisations supporting thousands of people to achieve digital inclusion and enable change.

Working to end the digital divide

We bring:

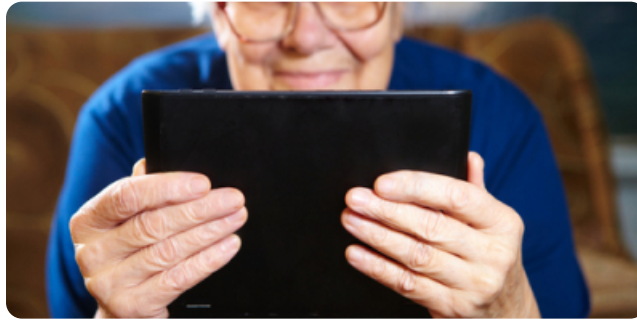

- **Experience:** we've spent more than 25 years in digital inclusion. From big picture strategies to small, practical solutions, we know this area through and through.
- **Expertise:** we've spent decades refining and refining what makes Digital Champions programmes succeed. We know our products deliver, how to tailor them to fit your needs and how to support you to make your project happen.
- **Innovation:** we're always looking at how to enhance what we do, from the sectors we work with, to the way we deliver. If your project doesn't fit our current models, get in touch and we'll see if we can work together to create something that does.
- **Commitment:** we want your project to succeed, and we'll do whatever we can to make that happen, in a friendly and collaborative way.

There's more here about [what we believe](#) and what we think has to happen to create a truly inclusive society.
