

Programme Planner

Our interactive planner will help you clarify **what you want to achieve and how** with your digital inclusion programme. It will get you thinking about goals and audiences; specific needs and considerations; priorities; what you've tried before, and how ready you are to get going now.

There are **no strings** attached and at the end, you'll get a **tailored report** with recommendations and a **free, practical guide** on running a Digital Champions project.
