

# How to buy online: Internet shopping

 [Print this guide](#)

From concert tickets to washing machines, groceries to holidays, there's bound to be a website that sells just what you want. If there's a particular brand or store you like, you can go straight to their website or you can visit a shopping website such as eBay or Amazon, which carry broad ranges of new and second-hand items.

If you're a bargain hunter, you can use a price comparison site such as [moneysupermarket.com](https://moneysupermarket.com), which lists the websites that sell your product according to price.

In this guide, we're going to show you how to find a product online and make a transaction.

## **You'll need:**

- a computer with an internet connection
- a credit or debit card.

## **Follow these step-by-step instructions to learn how to buy online**

### **Step 1: Search for a product using Google shopping**

Type the name of the item you want to buy into the search box of a search engine such as Google – for example, 'Roberts radio' – and click **Search** or press enter on your keyboard.

You will see a range of websites, from actual department stores such as John Lewis to large websites simply devoted to shopping, such as Amazon. You can also use the Shopping option on Google itself. Clicking on this will give you items available based on product reviews and price. You can also ask only for results available in shops near to you by clicking on 'Available nearby'.

### Step 3: Search via Google

If you've searched for a particular brand, you may also see the brand's own website. Choose one of these websites and **click on the link**.

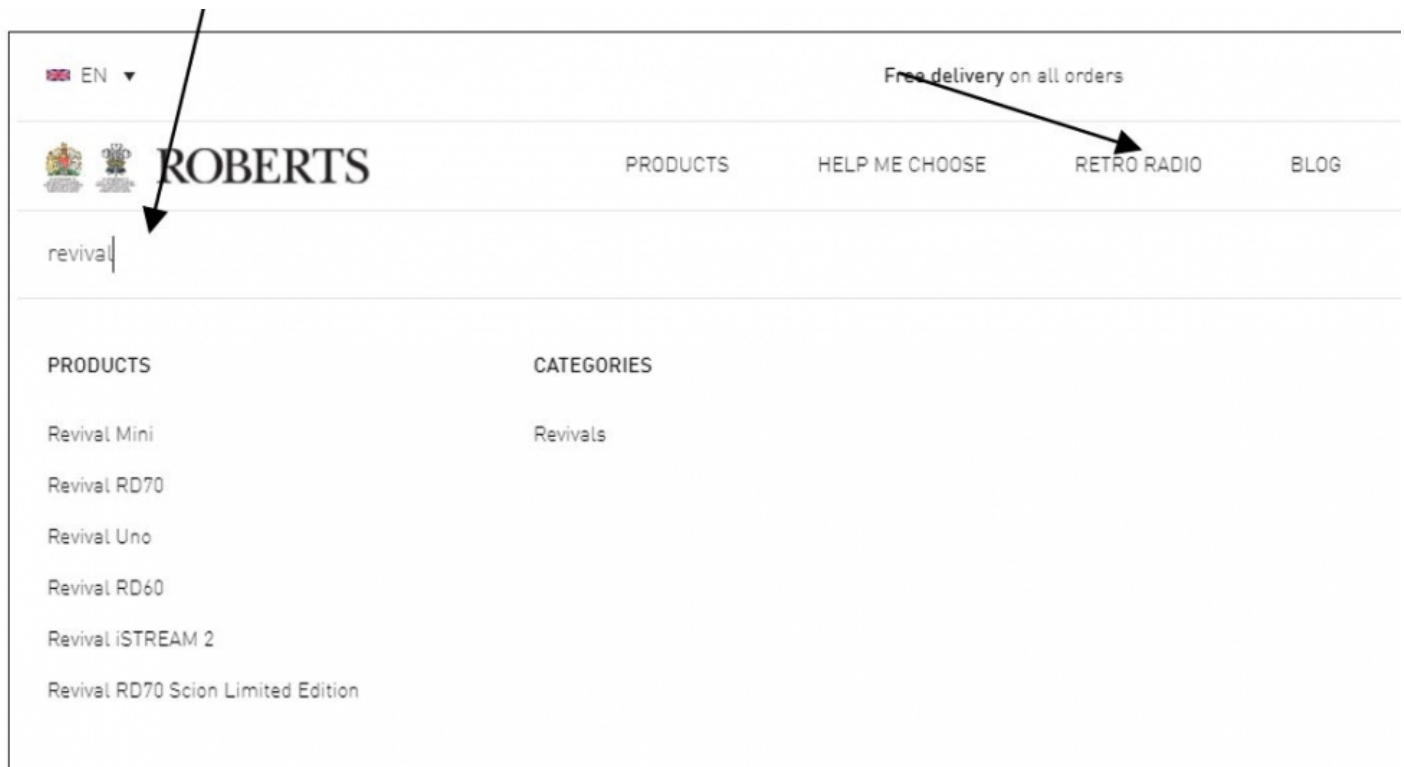

The image shows a Google search for "roberts radio". The search bar at the top contains the text "roberts radio". Below the search bar, there are tabs for "All", "Shopping", "Images", "News", "Videos", "More", "Settings", and "Tools". The search results show "About 158,000,000 results (0.47 seconds)". The first result is "ROBERTS Radios At John Lewis - Never Knowingly Undersold" with a link to "www.johnlewis.com/ROBERTS/Radios" and a 4.8-star rating. The second result is "Buy Roberts Radio at Amazon - Lots of Quality Audio Devices" with a link to "www.amazon.co.uk/Audio\_Devices/roberts+radio". The third result is "Roberts Radios - Free Delivery On All Orders - currys.co.uk" with a link to "www.currys.co.uk/Speakers/Deals". On the right side of the search results, there is a preview of the Roberts Radio website, which includes the company logo, a description of the company, and social media links for YouTube, Facebook, Pinterest, Twitter, and Instagram.

### Step 4: Searching for and buying a product from a website

A new page will open, taking you to the website. You can now narrow down your search by typing in more specific details such as a model name (for example "revival") in the search box, which is usually at the top right of the screen.

The image shows the Roberts Radio website. The top navigation bar includes links for "PRODUCTS", "HELP ME CHOOSE", "RETRO RADIO", "BLOG", "OUTLET STORE", and "CUSTOMER SUPPORT". There is also a search icon in the top right corner. The main content area features a promotion for "SAVE ON OUR PREMIUM WIRELESS SPEAKERS". The text describes the S1 and S2 speakers, highlighting their Bluetooth connectivity and multi-room capabilities. The prices are listed as "S1 was £199.99 now just £99.99" and "S2 was £299.99, now just £179.99". There are buttons for "SHOP S1" and "SHOP S2". The background of the promotion features images of the S1 and S2 speakers.

Then click on the magnifying glass in the top right hand corner. Some websites will have **Go** or **Search** next to the search box. Alternatively, you can click into a specific category (such as "Retro radios") and browse until you find a product you like. Most websites will have a global navigation where you can explore the rest of the website this is normally located at the top of the web-page with drop down menus.

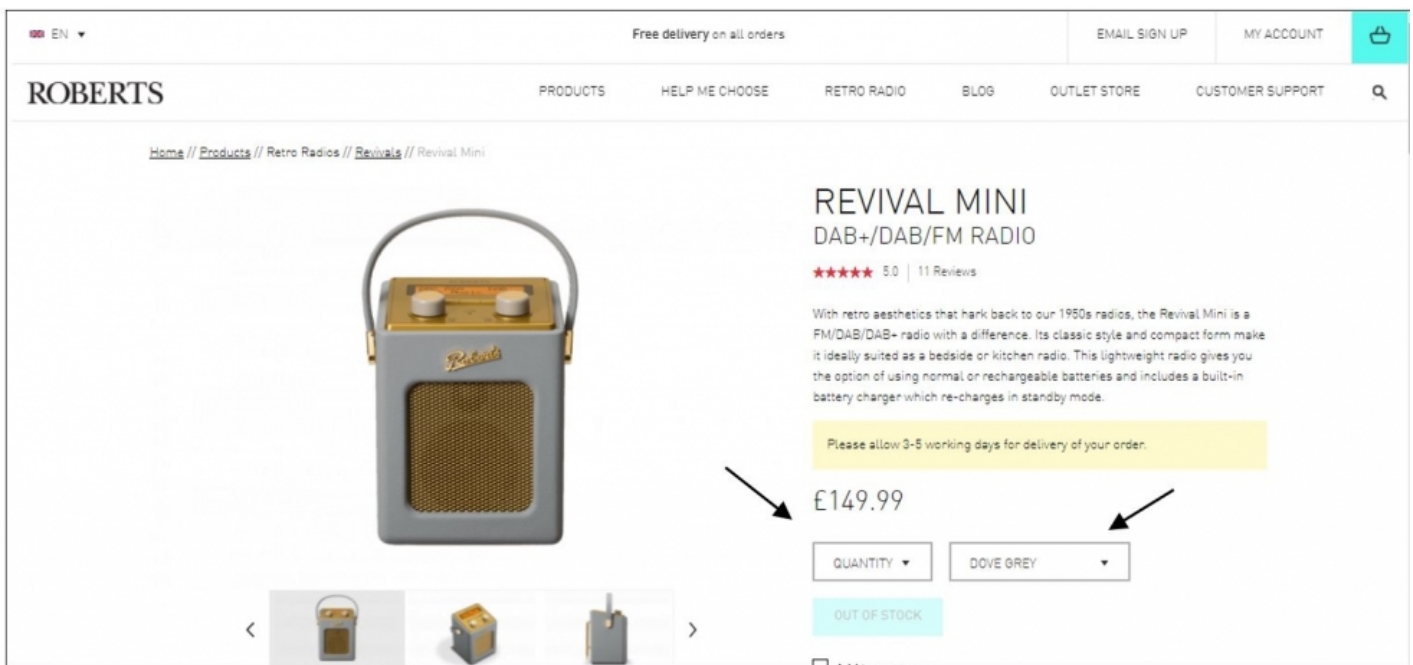

We have clicked into “Retro radios” and a selection of matching products is now shown. **Click on any of them to see more details.** We have selected the Revival Mini.

### Step 5: Adding a product to your basket

Many websites let you have a closer look at the product by hovering your mouse over the image. There are two boxes next to the image one to choose the quantity that you want to buy and one to choose the colour that you want.

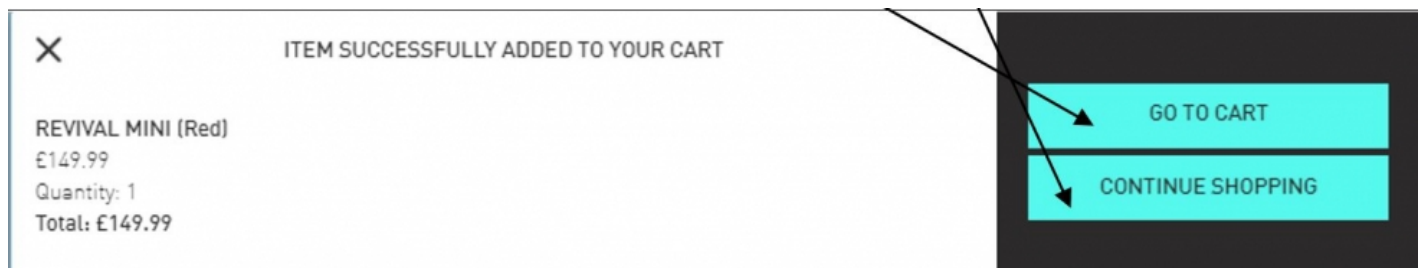

Once you have chosen the amount and colour click on **ADD TO BASKET**. Doing this will save the details of this item until you're ready to buy it, just as if you've popped something you want to buy into a real shopping basket.

#### Step 6: Continue shopping or buy your product

You now have two choices either to Continue Shopping if you wanted to buy other items from this website or to **click on Go To Cart** and pay for the item you have chosen.

#### Step 7: Checkout and pay

To pay for your item **click on the Checkout button**.

Some websites ask that you create an account; some give you a choice whether you want an account and some allow you to buy items without creating an account. If you intend using a site that gives you a choice on a regular basis then signing up for an account will make paying for items much quicker as your basic information is stored

### Step 8: Create an account before you buy

On this website you have to create an account in order to buy your item. **Click Create An Account.**

*Most websites will let you checkout as a guest. You can choose to create an account at a later time.*

### Step 9: Finalise checking out

You will need to complete all the boxes marked with an asterisk such as your email, name and address. If the item you are buying is a gift then complete the box with the address of the person you are sending it to. Please note however that some websites will only send items to the same address as that of the bill payer so this might not be possible.

At this point, you may be asked for another password if you've signed up for 3-D Secure, an added layer of security for online credit and debit card transactions. This includes Visa's 'Verified by Visa' and MasterCard's 'SecureCode'. Once you've given the right password, your order will go through.

You should receive an email confirming that your order has been received. Retailers often send a second email once an item has been posted.
