

How to order a vegetable box

 [Print this guide](#)

More and more people are using the internet to do their shopping from the comfort of their own homes, including getting a variety of fresh seasonal vegetables delivered to their door. In this online guide we will take you step-by-step through what you need to do to choose your box of fresh vegetables, set up an account, and place your first order.

We're going to use [Riverford Organics](#) as an example of this kind of website. However, there are other similar sites such as Abel & Cole that you can visit to buy your vegetables as well as a variety of other grocery shops.

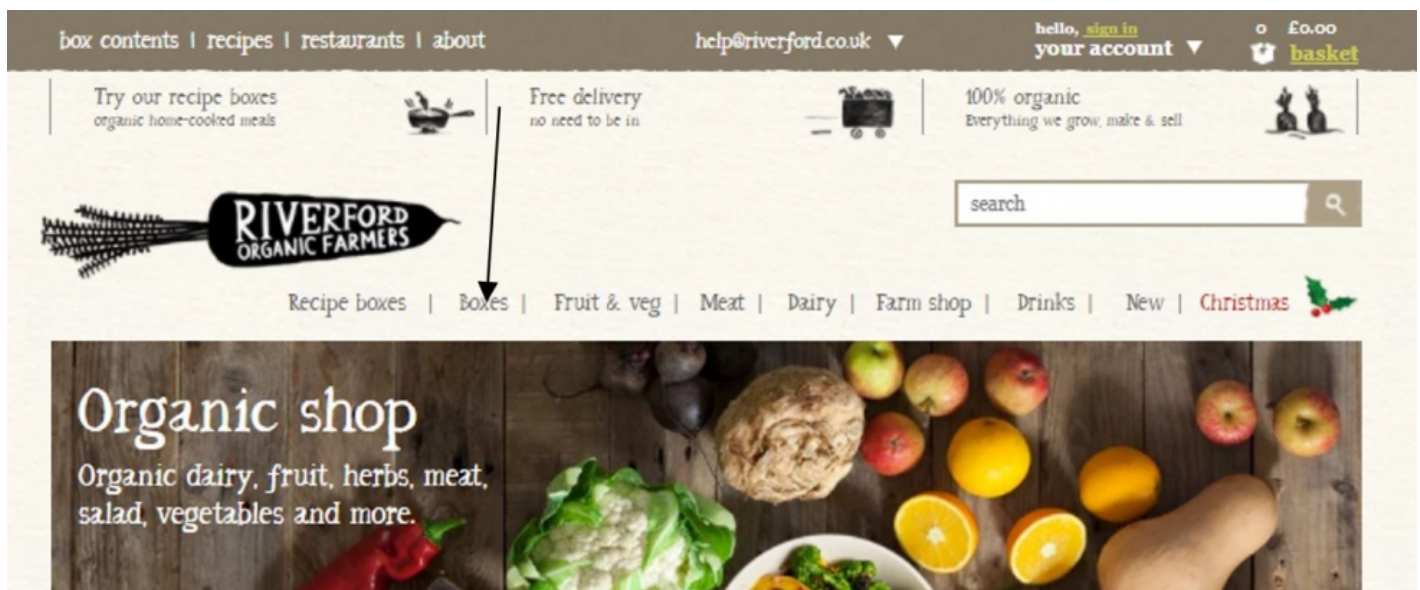

You'll need:

- a computer with an internet connection
- a debit or credit card for payment

Follow these step-by-step instructions to order a vegetable box

Step 1: Open your browser and go to <http://www.riverford.co.uk>. As you'll see from their home page, Riverford do much more than just sell vegetables, and once you've decided on a vegetable box you might want to spend some time browsing before you finally place your order. But, for now, let's have a look at the vegetable boxes.

Step 2: Click on **boxes** in the menu towards the top of the screen.

Step 3: You will see that the boxes come in a variety of sizes from Small to Bumper. For this guide we are going to choose medium.

Step 4: Next you need to check what sort of box you might like, just veg, veg and fruit or veg, fruit and meat – there is quite a bit of choice. For this guide we will choose the original veg box but do have a look at the choices as they change constantly depending on what is in season. If you want to know what sort of veg will be in the box, click on the image.

Step 6: Your basket will appear at the top of the page on the right-hand side, where you can also make changes to the goods you've selected by clicking on edit your basket and then clicking on + or - next to the item.
