

How to set up email on an iPad

Print this guide

Setting up an email account on your iPad means that you will be able to access your emails very easily, just by tapping on the Mail icon (the icon that looks like an envelope) rather than having to go through a website.

You'll need:

• An iPad with an internet connection.

Follow these steps to set up email on your iPad

Step 1: On the home screen, which is the screen that appears when you turn the iPad on and has all the icons on it, find and tap once on the **Settings** icon, which is the silver wheel-like icon.

Step 2: Along the list of options on the left-hand side of the screen that appears, tap once on **Mail**, **Contacts, Calendars**. Then, underneath 'ACCOUNTS' at the top of the list of options on the right-hand side of the screen, tap once on **Add Account**.

iPad		16:11	69% 🔳	
	Settings	Mail, Contacts, Calendars

*	Wallpapers & Brightness	Show To/Cc Label	\bigcirc	
-	Sounds	Flag Style	Colour >	
	Passcode	Ask Before Deleting	\bigcirc	
C	Privacy	Load Remote Images		
		Organise By Thread		
	iCloud			
	Mail, Contacts, Calendars	Always Bcc Myself	\bigcirc	
	Notes	Increase Quote Level	On >	
:=	Reminders	Signature	Sent from my iPad >	

Step 3: A list of all the different email account options will appear, for example 'Google' for Googlemail or 'Gmail' as it is often named. If you have a Hotmail account, tap on **Outlook.com**. If your email account isn't mentioned in the list, tap on **Other**. In this example we are using Outlook.com.

Step 4: A box will appear for you to add in your email address and the password you use for that email address. Tap once next to **Email** and type in your email address using the virtual keyboard that appears. Then tap once next to **Password** and type in your password. Next to Description give your email account a description, for example, 'John's Gmail account' and then tap on **Next** in the top right of the screen.

Step 5: In the next box that appears, tap on **Save** at the top right of the screen if you'd like all your emails, contacts, calendars and reminders to be automatically set up on your iPad. If you'd prefer not to set up one or more of these four options, you can deselect them by moving the green slider buttons next to the them to the 'off' position. To do this, hold your finger on the white circle in the middle of the green oval and slide it to the left.

	Notes	Always Bcc Myself	\bigcirc	
:=	Reminders	Increase Oliote Level	On S	

Step 7: To access your email account whenever you want, click on the **Mail** icon on the home screen, which is the icon that looks like an envelope.

Step 8: Underneath Mailboxes on the left hand side of the screen that appears, tap once on the **name of your email account** to read your emails which will appear on the right hand side of the screen.
