

What is Google Chrome?

 [Print this guide](#)

Google Chrome is a web browser that's free to download from the internet. Created by the company that created the Google search engine, it's been designed to be both simple to use and fast.

Google Chrome's key benefits and features

- Pages are quick to open and load.
- You can search the web from inside the address bar.
- You can add favourite websites to a folder or to the Favorites Bar.
- If you personalise the browser with iGoogle, you can include instant information on local news, weather, sport or virtually anything else that interests you.
- You can check your Gmail – the Google email account – from within the browser.
