

## 2006 Back Cove 26 Express **\$92,500**

Spirited, beautiful, and seaworthy, the Back Cove 26 is a joy to operate and a pleasure to own. She will cruise at 25 kts with her Yanmar diesel engine. Fuel economy is extraordinary throughout her speed range. At 20 kts, the 26 can cruise over 265 nautical miles at a cost almost 50% lower than most gas powered vessels. A bow-thruster is provided to facilitate low speed maneuvers. Downward turning spray rails and wide chines increase stability, keeping the boat dry in a seaway, and assisting her onto plane quickly. Sight lines from the helm are excellent.

The style and grace of the Maine lobster boat has long been admired by boating enthusiasts throughout the world. No builder blends the classical looks with modern construction better than Back Cove Yachts.
