

2003 Redfern Launch \$59,900

This Redfern 22 launch is the natural evolution of time-tested fishing hulls blended with the look and feel of the classic wooden launch. Constructed with modern boatbuilding materials and techniques, this handsome Redfern is a fast, strong, and able vessel. The stepped chine bottom provides exceptional lift and stability, lending itself to excellent top speeds and a very comfortable ride. This fast, classic looking launch comes to plane very quickly and tracks extremely well. The flare of the bow provides a dry ride even in heavy sea conditions. Her cuddy cabin is the perfect place to store your gear, and her simple and accessible breaker panel is easily reached from the helm. The large cockpit is watertight with stern scuppers and has a comfortable bench seat facing forward. This Redfern launch is the ideal choice for people who want to extend their cruising range.
