

2014 Back Cove 30 Price Upon Request

2014 Back Cove 30

The style of the Down-East lobster boat is closely associated with Maine's proud boat building heritage. The new Back Cove 30 is a grand example of everything that makes the Down-East lobster boat a work of art. She has a traditional spoon bow and her transom is gently sloped: a style that will turn heads in any harbor she enters. Below the surface, she is modern and contemporary. A resin infused, deep-vee hull with prop recess and standard trim tabs offers a quiet and comfortable ride. Equipped with her upgraded 370hp 8LV Yanmar diesel, she will cruise in the mid 20 knot range and top out near 28 knots. Around the docks, you will appreciate the maneuverability provided by her standard bow thruster and if circumstances require, the upgraded stern thruster is there when you need it. Her deck hardware is as rugged as the coastline she calls home.

Additional equipment has been upgraded to enhance your cruising experience. For further details, showing instructions and/or a complete list of equipment & price, please contact our office today.
