

2003 Chris-Craft Launch 28 Price Upon Request

Chris-Craft once again reveals its true identity with an uncompromising sport boat that is more evolutionary than revolutionary in its design. The use of premium woods, the curve of the foredeck railing and elegant lines conjure up romantic images of summers past. Chris-Craft's Corsair series in 1958 and the 1960s were a push towards contemporary styling that inspired future designs in boating. Today's Corsairs bear little resemblance to their predecessors, but remain true to the spirit and style of Chris-Craft. They evoke a sense of romance, adventure and daring. We invite you to DiMillo's Old Port Yacht Sales to see for yourself.
